## INDUSTRIAL CHALLENGES

Market dynamics, in contrast to installed capacities and capabilities, are by nature in continuous change and characterized by fluctuations.

Companies' ability to address to market opportunities is often limited by installed capacity and to their ability to pull and integrate **available resources, by-products and capabilities** from their **ecosystem**.

## THE SOLUTION

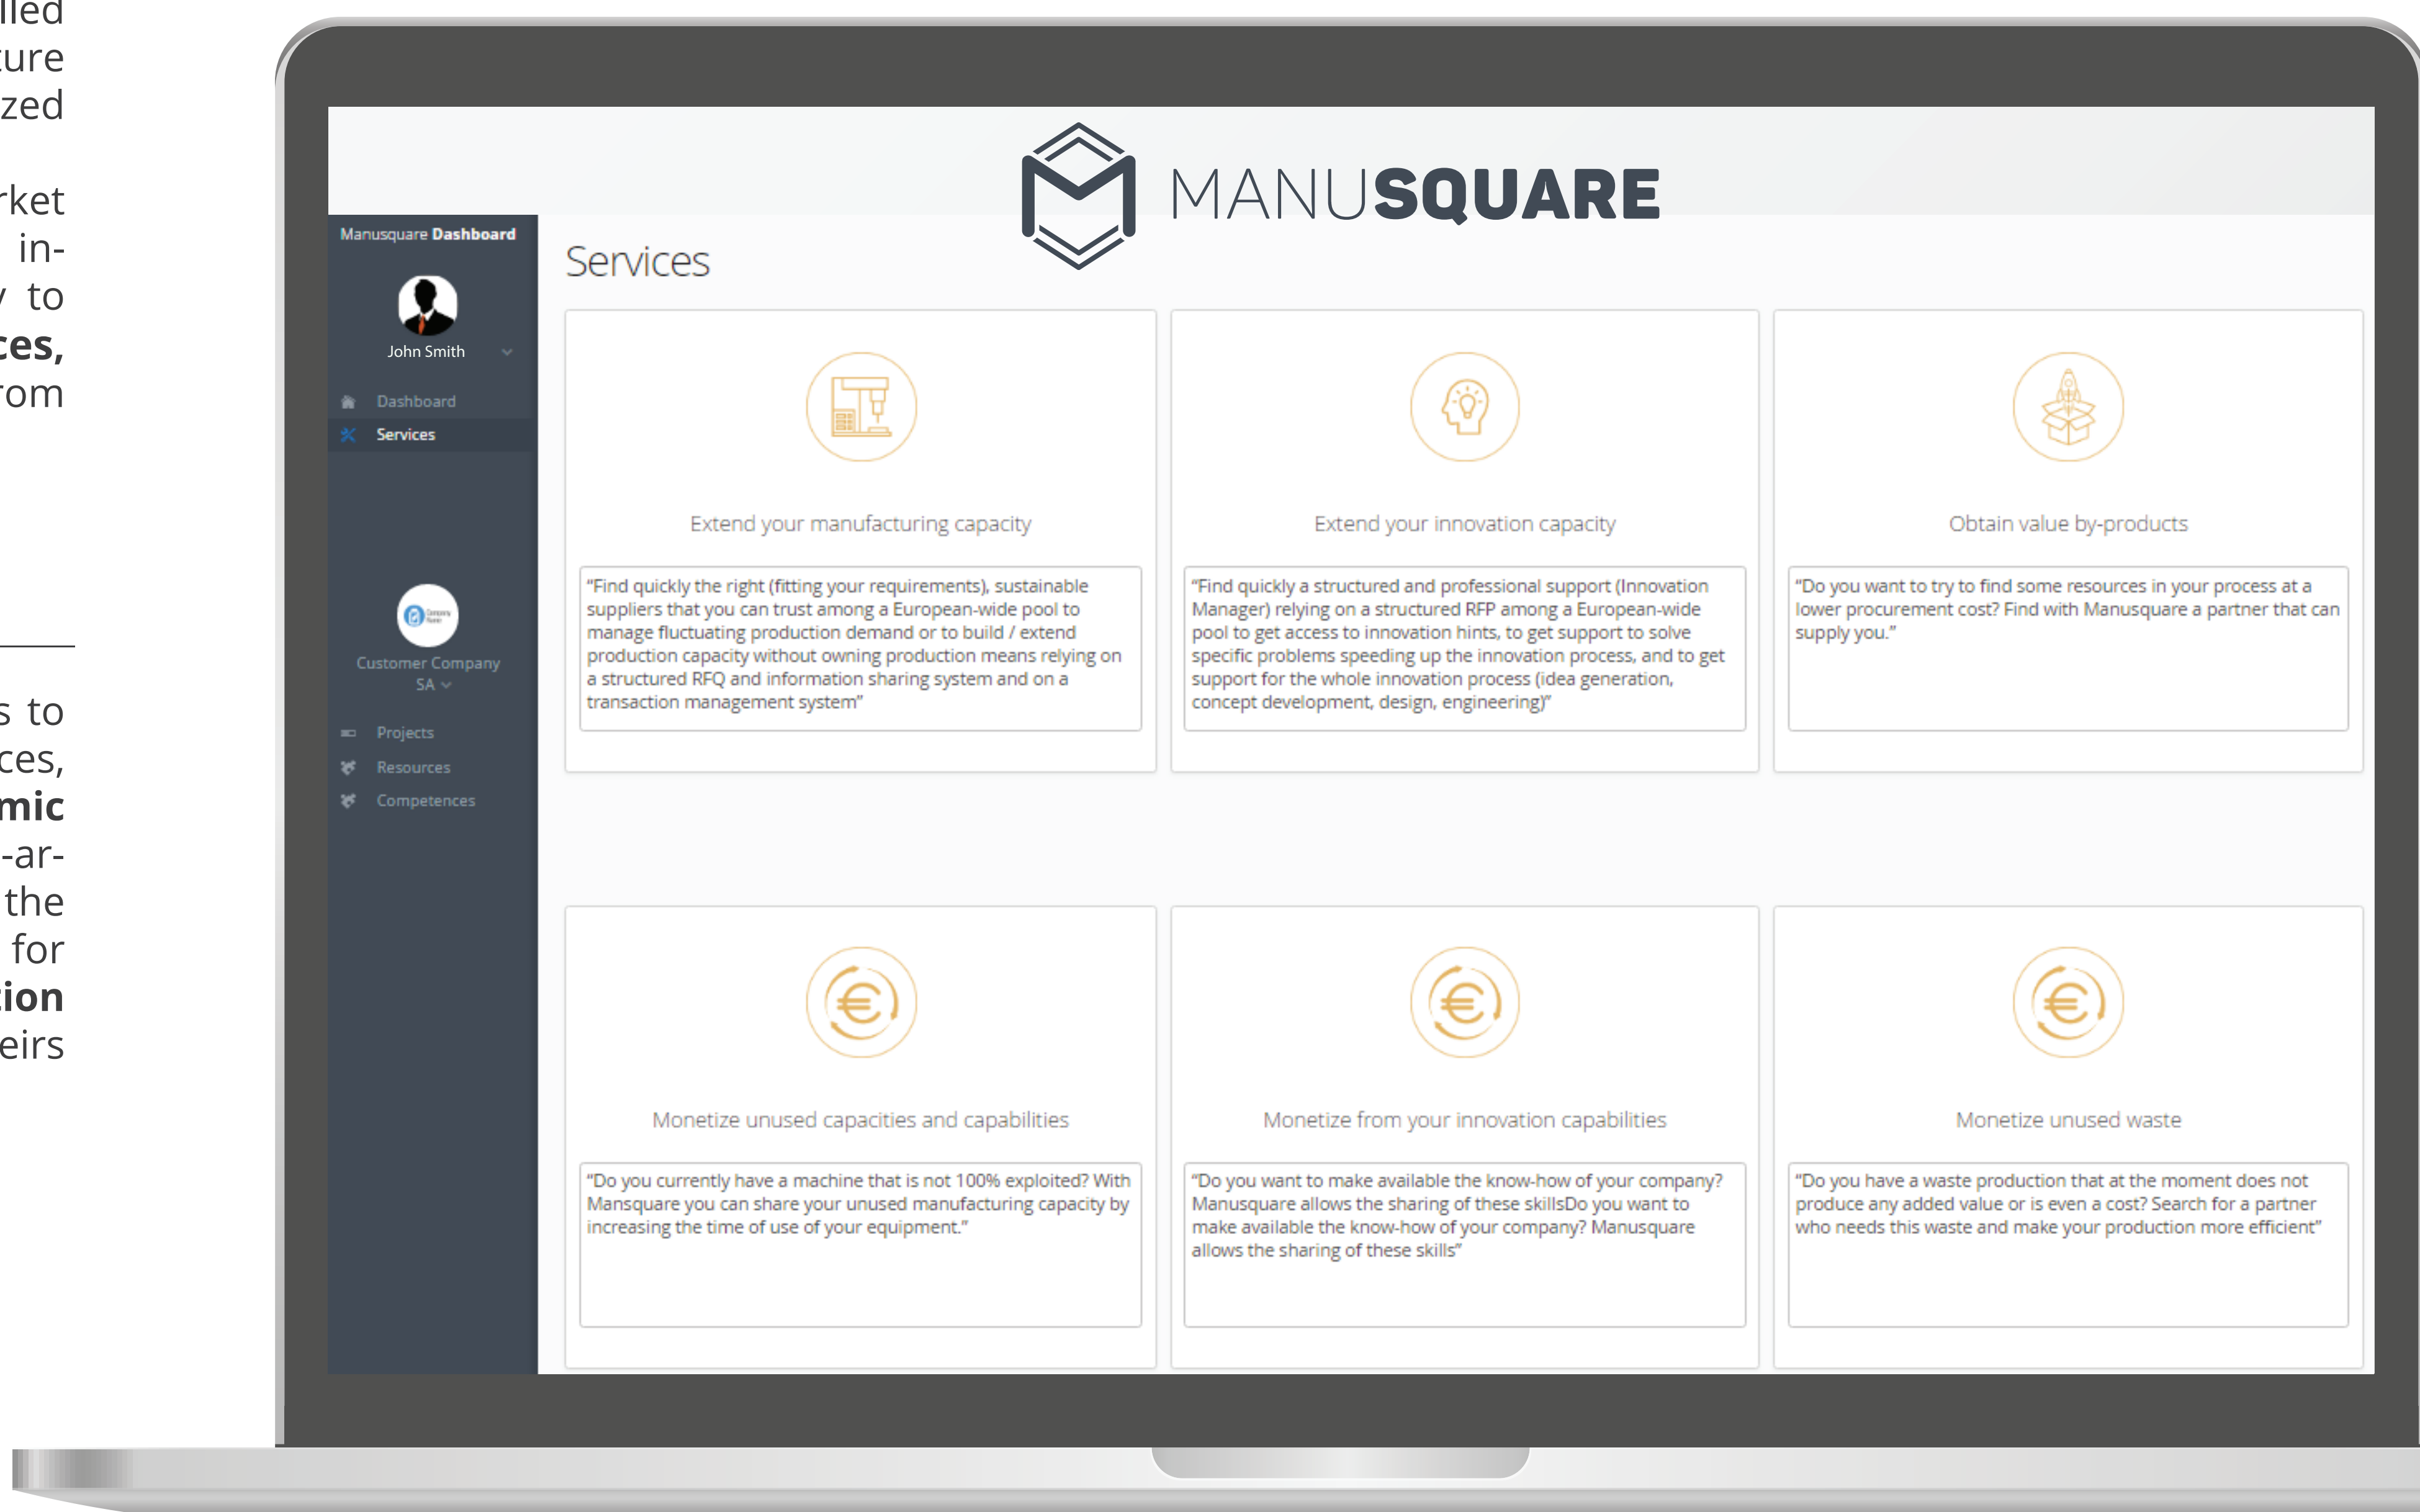

The **MANUSQUARE Platform** brings to life the tools, technologies and services, **enabling** the establishment of **dynamic value networks**, capable of being re-arranged, on-demand, to cope with the needs of both those that are seeking for specific **manufacturing and innovation capabilities**, and those who have theirs available.

## BENEFITS & ADVANTAGES

A B2B **ecosystem** is created with safe data transactions and highly traceable supply networks, that support:

- **matching supply and demand** of resources and of innovation ideas creating multi-sectorial trustable network effects and **enabling faster transactions**
- the access to **unexploited market opportunities**

## DASHBOARD

**- BECOME AN EARLY ADOPTER -**  
**WE ARE LAUNCHING ALPHA VERSION SOON!**
